

Horizon® - Unsurpassed print versatility for Ultrasound

Simplify Imaging

- **Print Versatility** - Horizon's unique ability to print grayscale and color in one imager makes it the only choice for demanding ultrasound applications requiring large and small format film for general ultrasound and breast images, color for cardiac, OB/GYN and 3D studies, plus low cost grayscale paper for patient and referral copies.

Lower Total Cost

- **Calculate Savings** - Horizon provides lower hardware, film and service costs than any competing dry imager. Horizon also has the industry's best warranty and first year service is included. Several Horizon models are available to suit your need and budget.
- **Replaces 3 Imagers** - Horizon is a film imager, a color imager and a grayscale paper imager - all in one. Switching between media is completely automatic, with no operator intervention.

Image Quality

- **MCM Technology** - Horizon provides true Medical Color Matching (MCM™) technology, an exclusive Codonics benefit that ensures prints always match color scales and soft copy monitors.
- **Low Cost Paper** - In a class that far surpasses any office product, DirectVista® Paper is a high quality medical media ideal for the referring physician that **provides up to 70% savings over film.**

Horizon®

Unsurpassed Print Versatility for Ultrasound.

More major manufacturer's choose Codonics over any other imager to demonstrate their ultrasound systems... so why shouldn't you? Horizon, a multi-media imager, eliminates the expense of maintaining three printers by incorporating a film imager, a color printer and a paper printer into one incredibly versatile desktop device. Horizon automatically prints color and grayscale without the need to ever switch cassettes or remove ribbons. Plus, our exclusive Medical Color Matching (MCM™) technology ensures prints always match soft copy monitors.

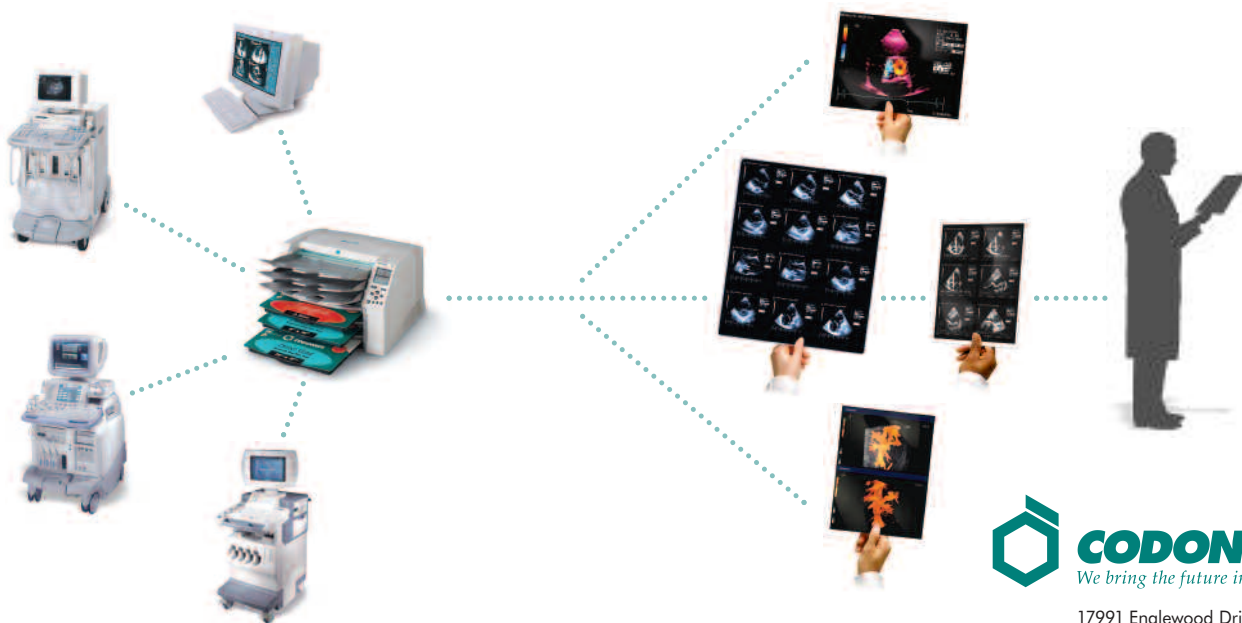

Radiology / Imaging Center

Applications

- Direct or Network Connection
- Up to 24 Simultaneous DICOM Connections
- High Throughput
- Compact and Easy to Site
- Satisfy Demands of Referring Physicians

- Patient Medical Files
- Referral Copy
- Surgical Planning
- For General Ultrasound Grayscale Images
- For Cardiac, 3D and Color Images
