

Codonics Infinity[®] DICOM Viewer

The Codonics Infinity DICOM Viewer provides advanced web enabled viewing* of selected medical image studies and series accessed over the network from any PC or workstation. This optional DICOM Viewer is easy to configure and can be quickly launched from the Infinity Web Viewer. The Infinity DICOM Viewer extends the reach of your Codonics investment by providing the ability to quickly view and share medical images** with other physicians in a secure environment.

Codonics Infinity Medical Image Server is a compact DICOM storage device that significantly improves workflow by locally storing all modality data for immediate access. In addition to the DICOM Viewer, Infinity also features an optional Web Viewer for easy remote viewing of JPEG medical images.

For general radiology review**

- Web-enabled DICOM viewer launched from the Codonics Infinity Web Viewer without additional file filtering or patient selection
- General DICOM image viewing includes full screen or mosaic modes for flexible image viewing
- Slice navigation, zoom, synchronization and pan
